

ARCHIBUS SOLUTION CENTER - ROMANIA

Introduce yourself to the industry's most extensive IWMS solutions portfolio and meet a team that comprehends all requirements for your organization's thriving success.

About us

Located in Bucharest, we proudly serve as the exclusive authorized Archibus Solutions Center for Romania and the broader region, encompassing Turkey, Bulgaria, Croatia, Austria, Hungary, Moldova, Slovenia, Macedonia, Kosovo, Bosnia and Herzegovina, and Greece.

Established in 2007, ARCHIBUS Solution Center - Romania stands as a market leader in the deployment of software solutions for managing the built environment, workplaces, people, and assets. The company's vision revolves around crafting innovative technology-driven solutions that facilitate the progress of our partners, all while staying aligned with our core values.

The Archibus Solution Center - Romania team combines top-tier expertise garnered through professional training and extensive experience in executing complex projects across Romania, Europe, and the Middle East. Our organization's consultants hold certifications in technologies such as PMP, Java, React, ISTQB, AutoCAD, Revit, BPMN, enabling them to provide specialized knowledge to our clients.

Our Involvement

We passionately embrace our leadership role within the most prominent associations and professional communities dedicated to enhancing the efficiency and profitability of building, facility, and workplace management.

Our commitment is to jointly lead the transformation, enabling change for the better.

Delivering results for top global companies

Our clients operate within critical sectors, managing a substantial volume of data: more than 14,000 buildings, over 3 million square meters of workspace, and hundreds of product or service orders annually.

The technology underpinning Archibus solutions, combined with our dedication and contribution, have aided hundreds of organizations in Romania and around the world in their journey towards prosperity.

Solutions

AUTHORIZED
Solution Center
Romania

We assist organizations in saving time and money by centralizing data, streamlining business processes, and enhancing the employee experience.

Archibus integrates data, roles, and objectives to aid organizations and industry professionals in enhancing performance, forecasting needs, and keeping pace with growth.

Servicii

Consulting

We are ready to assist organizations in assessing their needs and identifying the right solutions to generate savings and enhance organizational productivity in the short, medium, and long term.

Training

We offer a diverse range of courses to help users understand the solutions, simplify the integration process, enhance performance, and build the skills of application administrators or testing teams.

Implementation

Solution implementation is carried out by our local team, applying the Archibus best practices methodology, developed and refined over the past 16 years throughout our projects.

Support

To maximize the benefits of Archibus solution implementation, we provide comprehensive technical support. Regardless of the selected plan, authorized individuals can reach our experts via phone or email during or outside of business hours.
